

BUILDERS
collective

your shortlist of perth builders.

Your shortlist of Perth *builders.*

WHO WE ARE

Builders Collective is a building broker for Perth buyers. We sit on your side of the table, line up four builders for the same brief, and compare them side by side. Same budget. Same suburb. You see all the prices. They compete for your build.

WHAT IT COSTS YOU

nothing extra.

Our fee is paid by the builder, fixed, the same way an in-house consultant gets paid. You pay wholesale, not retail.

what has you *looking?*

Pick whichever fits. The shortlist looks different for each.

01

starting a family.

Outgrowing the rental, second bedroom needed, school zones matter. Looking 4-bed, suburb-priority over price.

FIRST HOME · UPGRADER

02

building equity, not a landlord's.

Rent is dead money. You want a mortgage that ends and a home that grows in value. Looking entry-level house and land.

FIRST HOME · ESCAPE RENT

03

downsizing on your terms.

Kids moved out, big house is too much. You want single-storey, lock-and-leave, in a suburb you already know.

DOWNSIZER · TURNKEY

04

not sure where to start.

You know building is the next step. You don't know which builder, which suburb, or whether your finance is even going to work. We start here.

FIRST CONVERSATION

finance, *first.*

Before we shortlist a single builder, we line up your finance. Our in-house team prepares your Letter of Eligibility in 48 hours. Everything after this is built on a real number, not a guess.

BY THE NUMBERS

what's on the table for a first home buyer.

\$10K FIRST HOME OWNER GRANT	48 hrs LOE PREP · IN-HOUSE	5% LOW-DEPOSIT PROGRAMS	\$0 OUR FEE TO YOU

WHAT YOU GET FROM THE FINANCE SIDE

- ▲ Finance specialists who understand the build process, not just the mortgage.
- ▲ Every eligible government grant checked, including First Home Owner Grant.
- ▲ Low-deposit and government-assisted programs mapped to your situation.
- ▲ One point of contact through finance, land, and build. No re-explaining yourself.

five things buyers get *wrong*.

01 *"going direct to a builder is cheaper."*

Going direct is **retail**. We access the same builders at **wholesale** through volume agreements. Most clients save \$25K to \$45K on the same build.

02 *"you'll just push me toward one builder."*

We compare **four** builders on the same brief, same budget, same suburb. You see every quote side by side. You pick.

03 *"i can handle this myself, it's not that hard."*

Hidden costs, contract traps, and prestart upsells catch most first-time buyers off guard. Average overspend going solo: **\$18K to \$30K** against the original quote.

04 *"using a broker makes everything more complicated."*

One point of contact from finance to keys. We coordinate the trades, the certifier, the bank. You get one phone number, one inbox.

05 *"there must be a fee on top of the build."*

There isn't. We're paid a **fixed fee by the builder**, the same way an in-house display village consultant is paid. The price you see is the price you pay.

your side of the *table*.

THE TRUSTED-NETWORK BIT

We work with a curated panel of Perth's reputable building companies, backed by 40+ years of combined residential and commercial experience. First homes, knockdown-rebuilds, double-storey, turnkey, rear battle-axe builds. Our panel has a specialist for each.

THE WAY WE WORK

- ▲ Multiple builders compared, never just one.
- ▲ Wholesale pricing through volume agreements.
- ▲ Off-market land in 60+ Perth suburbs, including infill sites.
- ▲ Hundreds of professionally-designed home plans.
- ▲ One project manager, finance through to keys.

STEP ONE

Finance

In-house finance team prepares your LOE in 48 hours. Every grant checked. Real number, not a guess. Everything that comes after sits on this.

02

STEP TWO

Land

Access to off-market land in 60+ Perth suburbs through our developer panel, including infill sites that don't reach the public market. Matched to your finance, your suburb, your build type.

03

STEP THREE

Build

Four builders shortlisted on the same brief. Same suburb. Same budget. Side-by-side comparison. You pick. They compete. Wholesale pricing only.

THE POINT OF THE TABLE

*no hidden line items.
no prestart surprises.
no “we’ll get back to you
on that one.”*

Most first-time buyers find \$18K to \$30K of cost they weren't told about between contract and slab. Our shortlist compares apples to apples on these five lines, every time, so you see the real number before you sign.

- ▲ Land price locked at contract.
- ▲ Siteworks quoted on real survey, not estimates.
- ▲ Variations capped and disclosed upfront.
